**CAUTION**  
 WARNINGS CONCERNING LARGE VESSELS  
 The "Rules of the Road" state that recreational vessels shall not impede the passage of a vessel that cannot maneuver within a narrow channel or fairway. Large vessels may appear to move slowly due to their large superstructure, but they may transit at speeds in excess of 12 knots, reducing the distance in which to maneuver or stop. A vessel's superstructure may block the wind with sailboats and sailboards may unexpectedly be unable to maneuver. Bow and stern waves can be hazardous to small vessels. Large vessels may not be able to maneuver close to their bows.
